Big Multilingual Linked Data (BigMu)

W3C Workshop
New Horizons for the Multilingual Web
7-8 May 2014, Madrid

Three streams:

* Linked data
* Big data
* Multilingual corpora

Objective: one model for the three streams

Some characteristics:

* Well adapted to web technology

* Small data – record – kilobytes-size

* Big data – database – terabytes-size

* n-lingual – not just bilingual

Raw data example:

* Official Journal of the European Union

M. T. Carrasco Benitez
